BiH, a country of 51,129 km², 4 million people and 18.7 million chickens

THE AFFAIR

OF BOSNIAN CHICKEN: WELFARE FACT SHEET

Four of BiH's agricultural sectors export is currently worth 30 million Euros. The Poultry industry is one of the main subsectors with an enormous growth potential.

In the last 3 years, the value of existing chicken meat export to Croatia only rose to **3.5 million Euros** but this revenue is in danger of **being lost** on 1 January 2013.

Why?

- 2009 saw the unanimous adoption of an animal welfare
 (AW) law in BiH's Parliament, before adopting much more
 basic legislation such as the Hygiene Package and legislation
 listed in the Road Map.
- The law was followed by the adoption of **11 bylaws**.
- The animal welfare issue in BiH was proclaimed **harmonized** with the EU yet **another EU check box** successfully **ticked off**.

BUT

- **Administrative chaos:** overlapping competencies of competent administrative bodies, no real central competent authority, lack of coordination.
- Lack of AW inspectors: only **1 AW inspector** in all of BiH.
- Absence of AW knowledge and misunderstanding of laws.
- AW is **secondary to food safety**, although it should be an upgrade of both safety and quality of products of animal origin.

Are we ready to lose 30 million

Euros, as well as more time

and energy?

How to AVOID it Immediately implement the Road Map, and

- 1) IMPLEMENT existing AW laws and bylaws
- 2) EMPLOY more AW inspectors
- 3) EDUCATE public & private sector and consumers
